

## EUROPEAN COMMUNITY (EC) TRADE WITH AFRICAN, CARIBBEAN AND PACIFIC COUNTRIES (ACP) -Results until June 1992-

### PART I. EC TRADE BALANCE VIS-A-VIS THE ACP AND CLASS 2 COUNTRIES

#### EC TRADE BALANCE WITH ACP

1. EC's trade deficit with the ACP countries was around 1,5 billion ecus in the first six months of 1992; for the same period of 1991 this deficit was nearly 2 billion ecus. This reduction of the EC's deficit with the ACP is due both to the rise of EC exports (4,7%) and the reduction of EC imports (-1,0%) from these countries. EC's surplus on non-oil trade was 1,4 billion ecus in the first half of 1992.

2. The cover ratio (exports over imports) of the EC with the ACP was 83,7% during this period, and 121,9% when considering non-oil trade.

3. EC's trade balance with CLASS 2 countries in the first half of 1992 experienced a surplus of 1,2 billion ecus, compared with a deficit of 7,8 billion ecus with this group of countries in the same period of last year. EC imports from CLASS 2 went down by 1,0% between the first six months of 1991 and 1992, while EC exports were up by 12,7% between the same periods. When considering non-oil trade, EC's surplus rose from 12,3 billion ecus in the first six months of 1991 to 19,4 billion ecus in the same period of 1992.

4. The cover ratio for CLASS 2 countries was 101,6% in the first half of 1992.

## PART II. EC IMPORTS FROM THE ACP AND CLASS 2 COUNTRIES

### EC IMPORTS FROM ACP

1. EC imports from ACP countries experienced a decrease of 4,9% in volume and 0,9% in value in the second quarter of 1992, compared to the same period of 1991; with these figures, EC imports from these countries during the first half of 1992 went down by 1% to 9,6 billion ecus. When considering non-oil trade EC imports from ACP were up by 0,2 billion ecus in the first six months of 1992.

2. EC imports of manufactured products (SITC 5-8) from ACP went up by 20,1% in value and 6,1% in volume in the second quarter of 1992, compared to the same quarter of 1991. Imports of these products represented around 27% of total EC imports from these countries. From January to June of 1992 EC imports of manufactured products from ACP went up by 17,5%, when compared to the same period of 1991.

3. EC imports of food, beverages and tobacco (SITC 0+1) and raw materials other than fuels (SITC 2+4) from ACP went down by 5,2% and 2,7% respectively in the second quarter of 1992. EC imports of fuel (SITC 3) experienced a decrease 9,2% in the first six months of 1992 when compared to the same period of 1991. For second quarter that decrease was 8,5%. These imports represented more than 32% of total EC imports from ACP.

# PART III. EC EXPORTS TO THE ACP AND CLASS 2 COUNTRIES

## EC EXPORTS TO ACP

1. EC exports to ACP went up by 1,7% in the second quarter of 1992, compared to the same period of 1991; however, they went down by 8,8% in volume. EC exports to ACP increased by 4,7% to 8 billion ecus in the first six months of 1992; when considering non-oil trade, EC exports to ACP went up by 5,8% between the first six months of 1991 and 1992.

2. This difference between the evolution of values and volumes is mainly due to the exports of manufactured products (nearly 80% of total EC exports to ACP), which went up by 2,1% in value and decreased by 8,7% in volume in this second quarter of 1992. Exports of these products increased by 7% in the first six months of 1992 compared to the same period of 1991, and they represented nearly 80% of total EC exports to ACP.

3. EC exports of food, beverages and tobacco (SITC 0+1) and raw materials other than fuels (SITC 2+4) to the ACP went up by 2,6% and 13,5% respectively in the second quarter of 1992, compared to the same quarter of 1991. EC exports of fuel (SITC 3) went down by 41,2% (48% in volume) in the same period.

## PART IV. EC-ACP TRADE BY PARTNER COUNTRIES

1. By groups of countries, the most significant fact in the second quarter of 1992 was the surplus registered by the EC with West Africa (29,2 million ecus). The cumulated EC deficit with this group of countries for the six first months of the year was around 335 million ecus. The EC kept the largest deficits in the first half of 1992 with Central Africa (953 million ecus) and Central and

South America (281 million ecus). The EC surplus with East and North Africa went up to 383 million ecus. By individual ACP countries, the biggest EC deficits from January to June 1992 were kept with Nigeria (568,2 million ecus) and Ivory Coast (364,1), while the largest surplus was experienced with Liberia (222,6 million ecus) and Sudan (166,5).

## PART V. EC-ACP TRADE BY MAIN PRODUCTS

1. The degree of concentration of EC imports from ACP went down slightly during the first six months of 1992. Five products were required to cover half of total EC imports from ACP: crude petroleum, non industrial diamonds, cocoa beans, coffee and raw cane sugar. The 24 products considered covered 70% of total EC imports from ACP.

2. EC imports of crude petroleum (31,5% of total EC imports from ACP) went down by 10,6% in value in the period January-June of 1992, compared to the same period of 1991; however, in volume they increased by 0,6%. More than 12,4% of total EC imports of this product comes from the ACP countries.

3. Only 5 of the 24 products selected experienced an increase in value in the first half of 1992 when compared to the same period of 1991: non industrial diamonds (90,2%), natural uranium (23,2%), raw cane sugar (11%), fresh bananas (7,5%) and tropical sawn wood (5,9%). EC imports of natural uranium from ACP coun-

tries accounted for more than 23% of total EC imports of this product.

4. The EC imports which suffered the largest reduction in value in the first six months of 1992 corresponded to the following products: bars of refined copper (74,8%), unwrought gold (39,2%) and unsorted diamonds (32,1%).

5. Imports of natural uranium from the ACP countries represented more than 50% of total EC imports of this product. Niger and Gabon were the main exporters. 98% of total EC imports of tropical wood, 80% of EC imports of raw cane sugar and 79% of EC imports of cocoa beans come from the ACP countries in the first six months of 1992.

6. The products which suffered the largest reduction of their import prices expressed in ecus were unwrought aluminium (17,8%), natural uranium (16,8%) and crude petroleum (11,2%).
